MAYOR COMMENTS & 2210 NORMANDY DRIVE – PHASE 1 DEMOLITION

Mayor Huddleston talked about an article, which was recently published in the St. Louis Post-Dispatch, about how security cameras around the St. Louis metropolitan area deter crime. He stated that the cameras he wants to install in Greendale are about \$4,600, so he needs approval from the Board for an additional \$1,600. Also, Mayor Huddleston informed the Board that phase 1 demolition at Normandy Drive would cost around \$1,300. Mr. Ruth added that it would be best for two separate motions because the security cameras and demolition cost are being paid out of separate bank accounts.

Alderman Garhart asked what the 3 estimates were for the cameras. Mayor Huddleston told her the bids were \$4,600, \$8,600, and the another contractor did not bid on the job. Mayor Huddleston added that the demolition estimates were \$1,300, \$2,600, and another contractor thought the job was too small to bid on.

Alderman Trojcek asked for a budget for the renovation cost for 2210 Normandy Drive. Mayor Huddleston stated he will have a budget for the April Board meeting after the demolition is completed. He is planning that the renovation will be completed in May. Mayor Huddleston added that phase 2 of the project would be the plumbing.

BILL 710/ORDINANCE 700 – NORMANDY POLICE 2017 CONTRACT

Attorney Ayers stated that he reviewed the contract last week and had two concerns with the contract. He added that the mayor directed him to contact the Normandy Police Chief. In light of the discussions by the Board at the last two meetings, the first concern was about the termination clause paragraphs in the contract, which had conflicting language in the contract. The Normandy Police Chief has no problem changing the language. The second concern was about insurance coverage, which is the reason for the delay. A brief discussion about insurance coverage and potential civil lawsuits took place. Attorney Ayers stated that the Normandy Police Chief called him today and said that the contract is currently being reviewed by the insurance underwriters. March Greendale Board Meeting
FAC Report

The Forestry Advisory Committee met on Wednesday, March 8, at 6:30 pm at the IWA Cafeteria.

The committee discussed Lawn Care Specs for city owned properties. A draft of the specs was reviewed and refined; the specs as approved are attached to this report. We understand these specs are for City-owned property and do not apply to forced-cut lawn mowing. The committee was informed by the mayor that this contract does not need to go out to bid and asked the committee to provide the name of a contractor to try. Doris Trojcek has provided a name to be contacted. Additionally, whoever the City hires will also need to clean out the brush and debris from behind the garage at #81 Greendale; this will require a chipper for tree removal.

The Committee then discussed plans for the Arbor Day celebration to be held on Sunday, April 30. Committee members will meet at the Park on Sunday, April 23 at 11 am to do general clean up at the Park. We are planning to have an arborist speak, possibly on the risks of tree damage during lawn care.. We are also hoping to arrange a tree planting, if Forest ReLeaf will provide one for free, and we are planning other games, activities and light refreshments to attract families to the event.

The committee discussed the need for the City to recognize that annual tree care needs now require an annual budget of \$16,000 so that the budget can be set at that figure from its first draft, rather than starting at \$10,000 and requiring a budget adjustment each year.

Chris Garhart reported on activities of the Capital Improvements Committee as they relate to the replacement of some 200 sidewalk slabs around the City and their relationship to tree roots. The CIC is trying to arrange to use structural soil to allow tree roots to grow without disrupting the new sidewalk slabs. Chris will keep us advised of this project.

A Silver Maple at 63 Greendale was damaged sufficiently to require removal. Doris Trojack is coordinating this project among Laclede Gas and Gamma Tree Service.

The next meeting will be on Wednesday, April 12th at 6:30 pm at IWA.

During the month of February FAC members provided 49.75 volunteer hours for the City of Greendale.

Respectfully submitted, Julie Dunn-Morton, FAC Chair

Report for March 21, 2017

Alderson Garhart

Capital Improvement Advisory Committee

John Schulte, the Chair of the Capital Improvement Advisory Committee has another commitment tonight. The committee met most recently on March 7, 2017. We agreed that the first priority is to repair uneven sidewalk slabs, one driveway apron and holes and depressions in the tree lawn (tree trace). After identifying the uneven slabs that have a difference in height of at least 1 inch, we re-examined them to decide whether to recommend replacement with new concrete or ramping with asphalt. Use of asphalt is less expensive and less permanent but effective in preventing trip hazards. That type of repair has been used in University City and Creve Coeur. We are now presenting our recommendations to the board.

Our survey of the sidewalks, curbs, and tree lawns is summarized:

- 187 slabs should be replaced with new concrete slabs.

- 1 driveway apron should be replaced.

- 49 slabs can be repaired with asphalt.

- 90 residences need fill in the tree lawn.

- 59 slabs are ponding.

- 80 slabs are cracked or spalling.

To move forward we would like to request sealed bids for the concrete work and estimates for fill and asphalt ramping. At this time, we are not planning to replace, cracked, spalling or ponding slabs. Monica Huddleston has volunteered to write a draft for a Five-year Capital Improvement Plan as 2017 is the last year of our current 5-year plan. The five year plan will also include sealing the cracks in streets.

The committee did discuss the cost and possible funding mechanisms for the sidewalk work. Monica got a rough estimate for concrete of \$8/ square foot. A 5' x 5' sidewalk slab would be \$200 so 187 slabs would be \$37,400. The cost could be a little less because slabs on Greendale Dr. are only 4' wide. We plan to use structural soil under the new slabs next to trees. The cost of the structural soil, top soil for fill and asphalt are hard to estimate, but Monica thinks that \$45,000 is probably a good estimate. This money could come from the reserves and partially from the Capital Improvement Sales tax account. The person who assisted us with our bond issue in 2004 advised Monica that a bond issue would be too costly. The interest rate would be too high for such a small amount.

Training

I attended the Municipal League Training Academy on February 23, 2017. The topic was Sunshine Law. The speaker emphasized that it is always necessary to cite the specific applicable reason for the closed meeting and explained that when a closed meeting concerns personnel issues a summary must be released. When the closed meeting concerns a real estate transaction, the minutes are no longer confidential after the closing on the property.

Meetings attended

I attended the monthly meeting of the Municipal League held in Bellefontaine Neighbors on Feb 23. The presentation by Brian Hoelscher of MSD concerned the need for additional funding for stormwater management. They will be holding meetings to gauge public needs and support before putting another proposition on the ballot.

Streetlights

All were in working order on my last check March 17.

Greendale Board Report 03-21-17

March 18, 2017, I attended a canvassing and phone calling training session from 9:30^{A.M.}-12:30 P.M. at Obama School. Afterwards I "planted" six PROP N yard signs along Normandy Dr. and at the Normandie Golf Course. I hope to make about 100 more phone calls from my home this week. We are in great need of help from many more volunteers.

2210 NORMANDY DRIVE BUDGET

Mayor Huddleston asked the Board to approve \$25,000 for renovations to 2210 Normandy Drive. Alderperson Garhart stated that the Board cannot approve a blanket amount because the city ordinances specify that any project needs 3 estimates or bids. Mayor Huddleston told Alderperson Garhart that the \$25,000 would be set aside and earmarked specifically for this project. Mayor Huddleston added that the project would still be transparent and the City would get three estimates or bids on every phase of the project. Alderperson Ringo explained to Alderperson Garhart that this method would allow the city more flexibility on the project timeline and the project would be done in a quicker manner. A brief discussion about the process and transparency took place.
